Professional Summary

Computer Science & Design Engineering student (CGPA 8.14/10) with hands-on experience in Core Java, JavaScript, React.js, HTML, CSS, JDBC, MySQL, SQL, Python, Git, and responsive web development. Completed a Web Development internship and built multiple software projects. Passionate about software engineering, problem solving, and continuously learning new technologies.

Education

B.E. Computer Science & Design | Alard College of Engineering & Management, Pune | SPPU
2023–2027 | CGPA: 8.14/10

Technical Skills

- Programming: Java, JavaScript, SQL, Python, C++
- Frontend: React.js, HTML5, CSS3, Bootstrap
- Backend: Core Java, JDBC, OOP, Collections, Exception Handling
- Database: MySQL (RDBMS), SQL
- Tools: Git, GitHub, VS Code, Power BI
- Concepts: REST API Basics, Responsive Design, DOM Manipulation, Debugging

Experience

Web Development Intern | SkillCraft Technology

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Built interactive user interfaces using DOM manipulation and optimized application performance.
- Used Git and GitHub for version control and collaboration.
- Received an official Letter of Recommendation.

Projects

Personal Portfolio Website (React.js)

- Designed and developed a responsive personal portfolio using React.js, HTML5, CSS3, and JavaScript to showcase projects, skills, certifications, and contact information. Built reusable React components with a clean, mobile-friendly interface. GitHub and live deployment will be added after the project is finalized.

Java JDBC CRUD Application

- Developed a Java-based CRUD application using Core Java, JDBC, and MySQL with database connectivity, exception handling, and OOP principles.

AI Financial Coach

- Built an AI-powered budgeting platform using Python and financial analytics.

Frontend Web Development Projects

- Developed responsive web applications using HTML, CSS, and JavaScript with reusable UI components and DOM manipulation.

Financial Data Analysis Dashboard

- Created an interactive dashboard using Python, Pandas, Excel, and Power BI.

Certifications

- TATA GenAI Data Analytics Simulation
- AWS Solutions Architecture – Introductory
- Mettl Certified – Introduction to Programming
- Ideathon Participant
